ProSafe® Auxiliary Fan Tray AFT200

The ProSafe® Auxiliary Fan Tray AFT200 provides a replaceable fan tray for XSM7224S 10Gigabit Switch. If AFT200 of the switch fails to work, it is easy to replace the failed one with a new fan tray. Two fan tray slots are provided by XSM7224S 10Gigabit Switch.

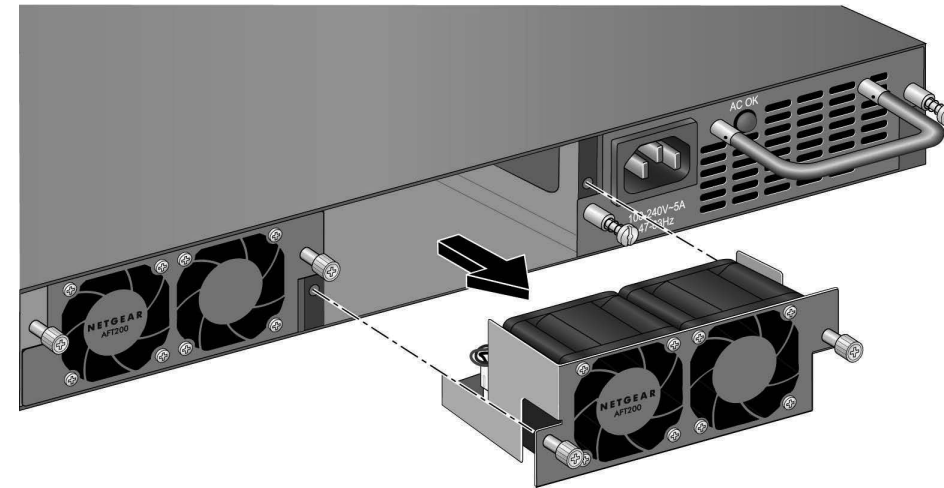

Removing an AFT200 Fan Tray

Note: The AFT200 has a hot swap capability. It is not necessary to remove the AC power when removing the AFT200 module.

To remove the AFT200 module, follow these steps:

1. Loosen the two captive screws on the fan tray.
2. Remove the fan tray from the fan tray slot by pulling on the captive screws.

Installing an AFT200 Fan Tray

To install an AFT200 fan tray, follow these steps:

WARNING!! When inserting a fan tray into the switches, do not use unnecessary force. Doing so can damage the connectors on the rear of the fan tray and on the midplane.

1. Insert the new fan tray module into the fan tray module slot, and gently push the module into the slot.
2. Align the two captive screws with the screw holes in the switch's back panel.
3. Using a screwdriver, gently tighten the captive screws.

Specifications

Specifications	
Dimensions (HxWxD)	1.60" x 4.22" x 2.34" (40.60 x 107.29 x 59.55mm)
Weight	0.34lb(155 g)
Operating Temperature	32 to 122 °F (0 to 50 °C)
Storage Temperature	-49 to 185 °F (-45 to 85 °C)
Operative relative humidity	10 to 90% and non condensing
MTBF	676058 Hours (~77 Years) at 25 °C 85680 Hours (~10 Years) at 55 °C

Technical Support

Thank you for selecting NETGEAR products.

After installing your device, locate the serial number on the label of your product and use it to register your product at <http://www.NETGEAR.com/register>. Registration is required before you can use our telephone support service. Registration via our website is strongly recommended.

Go to <http://kbserver.netgear.com> for product updates and support information.

For complete DoC please visit the NETGEAR EU Declarations of Conformity website at: http://kb.netgear.com/app/answers/detail/a_id/11621/
